The purpose of this workshop is to learn psychodrama sociodrama, role training, sociometry and group work and apply these methods to life. The workshop is designed for educators, therapist, counsellors, trainers, managers, consultants, health professionals, pastoral and social workers and those in any leadership position. It is suitable for beginners through to advanced trainees. You may expect to gain more satisfaction and enjoyment from your work as you further apply this intriguing and effective method to human individual, group and social development. The methodology is experiential adult learning with extensive supervised practice to integrate theory into practice. The leaders will demonstrate and teach in working with participants at their own level and interests. Hours are accredited by the Australian and New Zealand Psychodrama Association, Inc., ANZPA.
